Project: Aurora

1. Images for each page looks great
2. I also like the font choices
3. Little bit more line space in the body paragraph
4. I liked the green highlights; maybe bold the highlighted words and do normal weight for the other parts of the paragraph
5. Unify the font size and weight for the body paragraph(between home, form, changes over time, and colors and wavelengths)
6. Cannot access to the occurrences page
7. Also make sure that the menu bar size changes as the pages shrink!

Thank you so much!
